

**GOOD to KNOW**

# WHAT NOT TO FLUSH

## DISPOSABLE "FLUSHABLE" WIPES

Regardless of what the packaging may say, if it's not toilet paper it belongs in the trash, not down the drain where it clogs your pipes.

## MEDICATIONS

Expired or unwanted medications should never be flushed or poured down the sink. Wastewater treatment plants are not designed to remove medications.

## TRASH

The toilet is not a wastebasket. You'll save your pipes and lots of water by putting trash (paper towels, cotton swabs, feminine hygiene products, etc.) where it belongs.

**PLEASE FLUSH RESPONSIBLY » ONLY YOUR PERSONAL CONTRIBUTIONS**
