

Project Summary Form

Project Title: 4-H Garden - "Going Green"

School / Organization and Teacher / Leader's Name: Amy Henry

Project Outcome (Lessons learned, successes, results, number of youth involved, etc.): The outcome of the 4-H Garden - "Going Green" is positive and continues to impact the youth and other visitors at Airfield 4-H Center. The 25 youth and 6 adults involved in completing this project learned how to build rain barrels, a compost bin, and scarecrows from recycled materials. They learned about recycling rainwater, reducing waste through

If applicable, how many volunteers participated and for how many hours did they volunteer?

31 total volunteers participated in this project averaging three hours each for a total of 93 hours served.

What did the students enjoy the most of this project?

The students enjoyed trying something new and help improve the environment.

How could a similar project be improved? (Lessons learned, etc.):

A similar project could be improved by planning the budget more carefully. We underestimated and had to postpone creating the marketing and interpretive signs. Also in the future we would devote an entire day to this project. We included this within

Please include copies of your receipts, any photos, materials, or program information available on your mini-grant program. Pictures received could be displayed on the websites.

Please fill out and mail or fax to HRPDC, Attention: HR Green Mini-Grant, 723 Woodlake Drive, Chesapeake, VA 23320, FAX: (757) 523-4881 Thank You!

Your completed and returned summary form will be submitted for consideration for the Project of the Year Award. If selected your project will be recognized at the regional environmental education conference.

Continued on reverse

Outcome Continued-

compost and reusing waste materials to build scarecrows and deter wildlife from the 4-H garden. As a result, the success of the 4-H Garden - Going Green project is providing a wealth of learning opportunities to the 1400 youth participants in the Southeast District 4-H Summer Camp program.

Similar project continued -

a larger service learning project which made it difficult to complete in a limited time frame. Overall this projects success has added to the educational opportunities at Airfield 4-H Center.

Thank you for your support in educating our youth.
